Rakesh Sasibhushan

Chairman-cum-Managing Director

Virtual launch of Satcom Industry Association (SIA) -India - A message for the Association

“Happy to note this new development in the Satcom front. Satcom domain is now in the process of being de-regulated, thanks to the timely action from the govt. of India. This is a promising area for business since around 70% of the revenue generated by the Space industry is through Satcom. India holds great promise for consuming this service as the services become more and more freely available and prices become competitive. I'm sure the SIA's involvement, as an industry voice, will be crucial to the development of the sector as the new technologies evolve and make Satcom a household service in the near future.

All the best for a successful launch”

(Rakesh Sasibhushan)
